PROFESSIONAL EXPERIENCE

Freelancer

Feb 2025 - Present

I've worked on both the front-end (what the user sees) and back-end (servers and databases) of websites and apps. I handle everything from making them look good to making sure they work properly in the background.

Feb 2021 - Dec 2024

As a Full Stack Developer,

- Created 15+ SEO-friendly web applications with React.js, Node.js/PHP, improving client sites' rankings by 40%+.
- Developed custom WordPress plugins for SEO automation used by 40+ client websites
- Implemented AI-driven content analysis solutions that reduced manual SEO audits by 70%.
- Optimized MySQL/MongoDB databases for 5 enterprise SEO platforms, page load times <1.2s.
- Led migration of legacy systems to Next.js, increasing organic traffic by 25% for major clients.

Apr 2018 - Feb 2021

As a WordPress/PHP Developer,

I'll specialize in custom WordPress themes, Woocommerce store setups, plugin configuration, and website optimization for speed and SEO.

I've worked with a variety of industries, helping businesses grow their online presence through clean design, scalable architecture, and a strong focus on user experience.

Whether using themes like Flatsome, customizing layouts, or improving mobile usability, I deliver functional, modern websites tailored to each client's goals.
